About TRIO (Transplant Recipients International Organization)

Website: www.trioweb.org

TRIO's MISSION

TRIO is a non-profit organization improving the quality of lives touched by the miracle of transplantation through support, advocacy, education and awareness.

Support

We provide support to transplant candidates, recipients and their families, donors and donor families to help alleviate the stresses and problems associated with the process.

Advocacy

We make the concerns and needs that affect the welfare of transplant candidates, recipients, and donor families known to federal government bodies. We also effectively communicate the views of transplant candidates, recipients and their families, donors and donor families to the general public.

Education

We provide current information (with respect to developments in organ and tissue donation, transplantation, medications, social issues, and finances) to transplant candidates, recipients and their families, donors and donor families about initiatives and protocols in the field of transplantation.

Awareness

We promote organ and tissue donation as an important social responsibility. We develop and support mechanisms to improve the availability of organs and tissues on an equitable basis to meet the need of transplant candidates.
